Audio Files are available at [www.musictechteacher.com/mtlesson\\_its\\_a\\_rap001.htm](http://www.musictechteacher.com/mtlesson_its_a_rap001.htm)

The Music Tech Teacher website features over 300 pages of music quizzes, games, worksheets, lesson plans and student work, as well as in-service information related to teaching music and technology.

The songs created by the Ms. Garrett and her students are being used to teach the students how a simple studio recording session works and the process used to create the music and CD's. We have posted the audio files of these songs on our website under 'Lessons'.
